

MEMORANDUM OF UNDERSTANDING

This Memorandum of understanding (hereinafter referred to as “the MoU”) is created on the 18th of August 2021 and valid for next two years.

BETWEEN

Department of Software Engineering, Daffodil International University, Daffodil Smart City, Dhaka, Bangladesh

AND

Aachol Foundation, Bangladesh

1. Purpose

Department of Software Engineering, Daffodil International University and Aachol Foundation now want to collaborate and develop some innovative research, may develop products, conduct mental health awareness program, publish research articles and work on various practical surveys on different dimensions for some research purpose, through which both parties would use machine learning and other IT features to predict the future of the depression and suicide rate among the youth.

2. Background of the Institutions

i. Aachol Foundation:

Aachol Foundation is a non-profit social organization aimed to create awareness among students about taking care of their mental health, to recognize strengths as well as weaknesses, and to make them focused, participative in daily life. To make youths skilled, Aachol Foundation has conducted many projects and social activities among university students based on mental health. Through these projects, they come with several ideas and based on them, they execute them in a way where not only the youth but also the society can be benefited.

Aachol Foundation was founded in 2019 by Tansen Rose. Main purpose behind this organisation was to support youths mentally and make them skilled for their upcoming life.

In continuation of this, Aachol Foundation has undertaken several activities. It has opened a consultancy unit to provide mental health service. Along with that, they arrange workshops among University students where they can open up their problems and a psychology specialist helps them to find out their way to solve those.

ii. Department of Software Engineering, Daffodil International University:

Department of Software Engineering, Daffodil International University, Bangladesh located at Daffodil Smart City, Dhaka, Bangladesh.

Daffodil International University (DIU) is recognized in independent government assessments as one of top graded universities in Bangladesh. The university today combines impressive modern facilities and a dynamic approach to teaching and research with its proud heritage of service and achievement.

Extension and outreach programs are fundamental to the IT-based mission because these programs somehow directly affect the lives of the entire world. The University is maintaining the strengths of its traditional outreach programs and increasingly involves the broader university in outreach programs that respond to the changing needs of the society in which we live. The university is continuing to seek new and innovative ways to reach out to the people it serves. In continuation of the university activities, the Department of Software Engineering works collaboratively with various national and international universities, industries and institutions.

Aachol Foundation and Department of Software Engineering (SWE), Daffodil International University are jointly hereinafter referred to as “**the Parties**”.

3. Roles and responsibilities of the Parties

Above parties are agreed to the following points:

1. Aachol Foundation and SWE, DIU will conduct surveys on various concepts and at least 1-2 surveys per year.
2. SWE, DIU will provide research knowledge, build questionnaires and Aachol Foundation will collect data and share the data with the society.
3. SWE, DIU will be supervising all those surveys conducted by Aachol Foundation if needed.
4. SWE, DIU will provide man-power to Aachol foundation and questionnaires if needed. Here considering two aspects as for the research background SWE, DIU may study and provide theoretical knowledge and for the medical evaluation Aachol may justify the questionnaires with the help of a doctor.
5. SWE, DIU will be organising webinars/seminars and Aachol will conduct those .
6. Aachol Foundation and SWE, DIU will provide online certificates to the participants of the webinars together.
7. Aachol Foundation will be forming a wing in SWE, DIU.

8. Aachol Foundation and SWE, DIU may develop some mental health products such as depression calculator, anxiety scale, suicide tendency calculator, personality measurement / check scale etc.
9. Aachol Foundation will set up a mental health support centre in SWE, DIU.
10. There will be research articles, surveys conducted by both and the both parties will have the copyright of those. For each publication the total number of author names could be equal, such as if the total authors in a paper are 4, 2 will be from SWE, DIU and 2 will be from Aachol. If the total number is odd, like 5, 2 will be from SWE, DIU and 2 will be from Aachol, and another one will be from any institution depending on the contribution. But in those papers 4-5 or more people may work together.
11. This MOU will be running for next 2 years and shall become effective upon signature by the authorized officials from Aachol Foundation and SWE, DIU. It will remain in effect since (.....) until modified or terminated by any one of the partners by mutual consent.
12. Which party will pay for the publication and how much will be paid will be decided through discussion later.

4. Schedule and information sharing

The Parties agree to start sharing information, expertise, services and resources after signing this MoU to identify the best path forward to the benefit of all involved. The Parties agree to share the necessary information as stated in section three.

5. Compliance, alteration, dispute resolution and force majeure

i. Confidentiality:

Each party must always endeavor to make information and data on its database readily available for use by the other party for the purposes mentioned herein. The Parties agree that information about this agreement may be provided to relevant third-parties.

ii. Alteration:

No additional or alteration or modification or cancelation of any provision of this MOU or consent to deviation there from shall be valid, unless such is in writing and has been signed by both Parties.

iii. Dispute resolution:

In the event of any dispute or disputes arising out of the implementation of this MOU, the Parties hereto shall endeavor to resolve such dispute or disputes amicably among themselves, and where consensus cannot be reached, such dispute or disputes shall be referred to the competent Court.

iv. Force majeure:

Neither Party shall be held in default, in performance of obligations under this MOU, in circumstances of Force Majeure. For the purpose of this MOU, Force Majeure includes but not limited to wars, riots and strikes, commotion, blockades, acts of terrorism, fires, floods, earthquakes and adverse changes in Governmental Regulations and Laws. In the event of Force Majeure, the parties undertake to consult each other in order to agree in appropriate cause of action in a given circumstance.

v. Termination:

This MoU shall continue from the Effective Date unless terminated for convenience by either PARTY upon 30 days prior written notice ("the Termination Date"), and upon such a termination both PARTIES shall have no further obligations to each other.

6. **IN WITNESS WHEREOF**, this MoU has been duly executed by the Parties hereto, the day and year are hereinabove mentioned.
